ABOUT CEED UGANDA

Community Empowerment Education Development (CEED) Uganda is a not-for-profit organization that empowers young people to become positive change agents in their communities. We believe that youth are drivers of positive social change; they have the power to drive economic growth, shape resilient communities and build strong relationships within the communities. We are dedicated to social justice, community empowerment by supporting youth in our communities. We leverage on the abundant potentials of the youth to shape better communities.

We are able to do all that we do, with the generous contributions from the students of Concordia University. The vision that enables us to do our work is based on our positive attitude towards young people. "We see youth as change agents in their communities" Our mission for the youth is to foster community engagement through skills development and information sharing.

ABOUT THE INTERNSHIP

In 2020, as Covid-19 pandemic disrupted economies and activities across the globe, CEED had to cancel our regular internship including travel to Uganda. However, we strongly believe that internships are an important and enriching part of students' university experience as they provide students with real-world experience, facilitate meaningful connections and build key skills that will support them in pursuing their careers.

That is why we decided to adapt our program to the current context by offering a virtual internship program that would fulfill our mandate to provide students with a valuable international learning experience, by incorporating them into a multi-cultural virtual workplace.

CEED Concordia interns, in partnership with Ceed Uganda interns, will develop and facilitate practical workshops for high school students in Gulu, that improve basic skills in Microsoft such as Excel and Word and introduction to coding. The aim is also to contribute to leveraging new technologies in the benefit of the teenagers' education and personal development.

RESPONSIBILITIES OF THE INTERN

- Attending an onboarding training
- Attending team meetings
- Developing and facilitating workshops for high school students
- Engaging and collaborating with interns in Uganda
- Creating creative content for the workshop
- Building basic skills in ICT among Ugandan youth (Microsoft Office tools)
- Building basic skills in programming languages and platforms among Ugandan youth (ie. HTML, JavaScript, CSS)
- Encouraging youth to use new technology for education and personal development
- Redaction of final reports and recommendations
- Other related duties as required

REQUIREMENTS

- Must be tech savvy and proficient in ICT and programming
- Must be a University Student
